

ligateam 6

Acoustic hub for DECT headsets conference

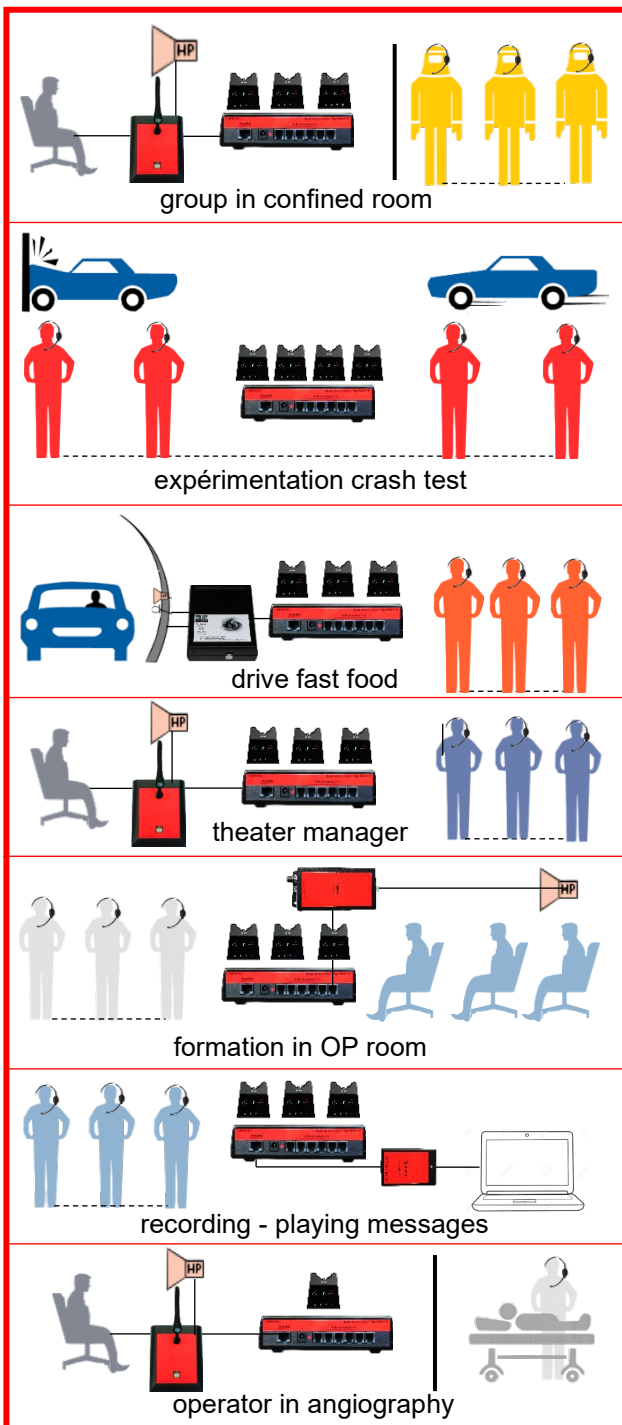

TOPTRONIC
LE DIALOGUE ELECTRONIQUE
BIEN AJUSTE

ligateam 6 is a simple tool to compose on demand communication solutions.

ligateam 6 put in conference, in full duplex dialog, without weakening and parametrage, with an excellent acoustic quality, 6 DECT headsets several brands.

An extension 10, 14, 18 positions can be realised by connecting several *ligateam 6*.

6 DECT headsets
several brands

6 additional functions

The acoustic hub *ligateam 6* is principally dedicated to conferences between people with DECT headsets : drives, hospitals, scientific laboratories, test groups, fast-foods. Extension 10/14/18.

The operators converse hand free and adjust the volumes on their headsets.

Special terminals add ergonomic functions :

- listening on amplified loudspeaker
- speaking over microphone desk
- dialog with microphone loudspeaker totem
- telephone conversation
- dialog and supervision of group in safety clothes
- recording and playing of messages
